

Quick Start Guide

Home Theater Audio System SC-HTB770

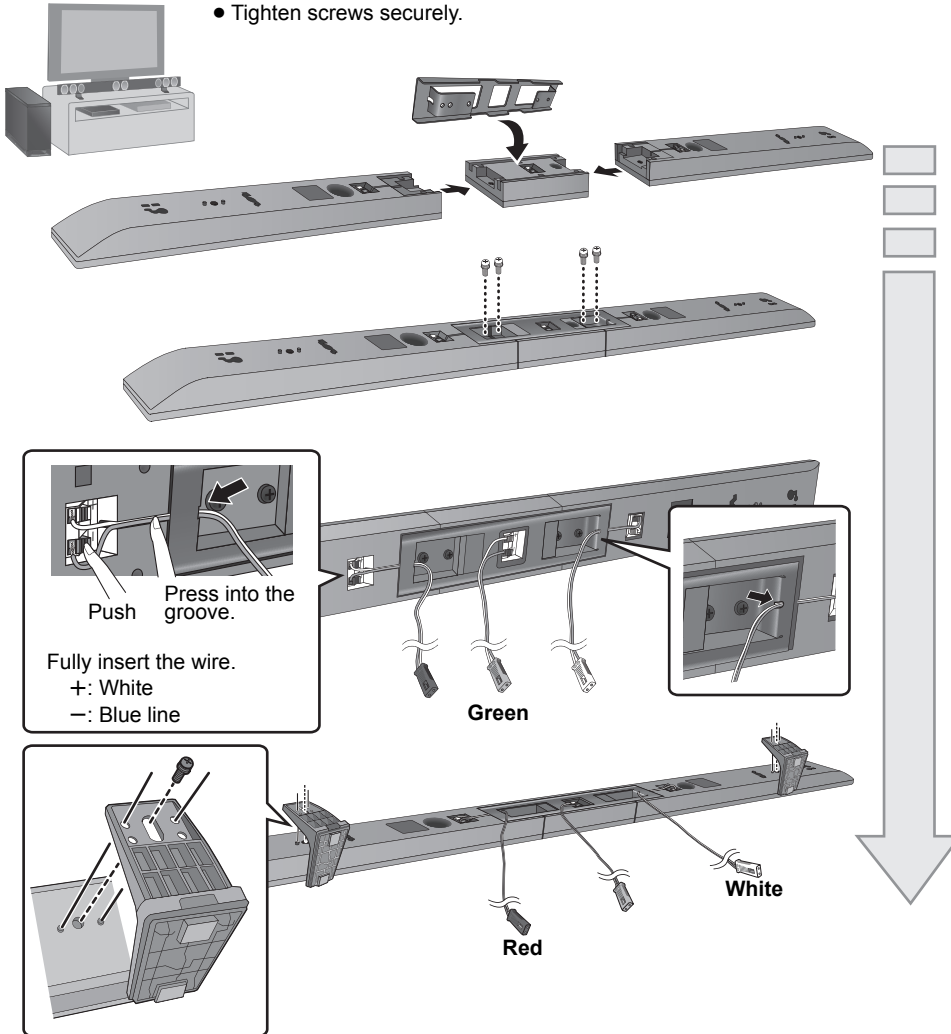

Panasonic

Step 1: Choose the configuration that is right for you

Place the speakers horizontally

To prevent damage or scratches, lay down a soft cloth and perform the assembly on it.

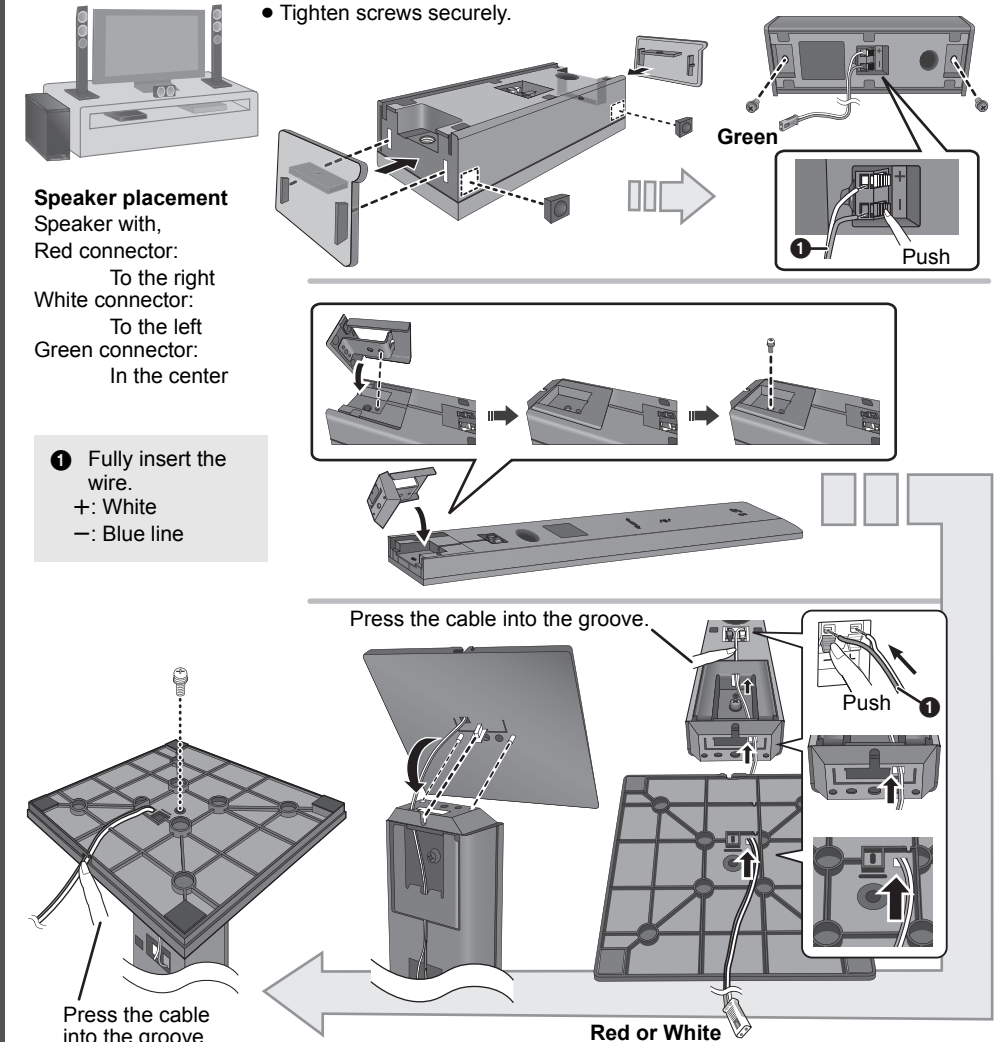

- Tighten screws securely.

Place the front speakers vertically

To prevent damage or scratches, lay down a soft cloth and perform the assembly on it.

- Tighten screws securely.

Step 2: Connect the cables

Do not connect the AC power supply cord to the main unit and the active subwoofer until all other connections are completed.

When the TV is HDMI (ARC) compatible

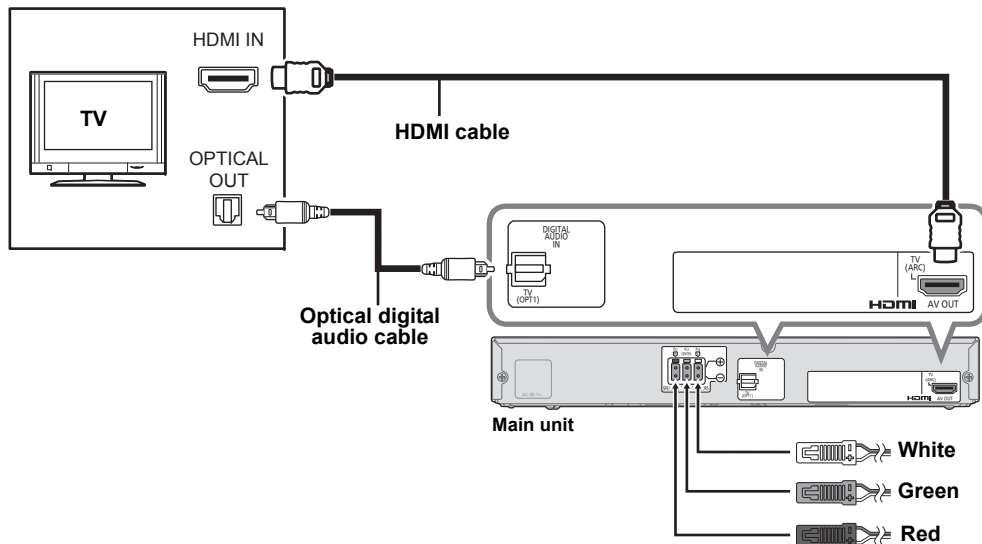

HDMI (ARC)

Audio Return Channel:

Allows a home theater system to receive and play audio from the TV through a HDMI cable without additional wiring.

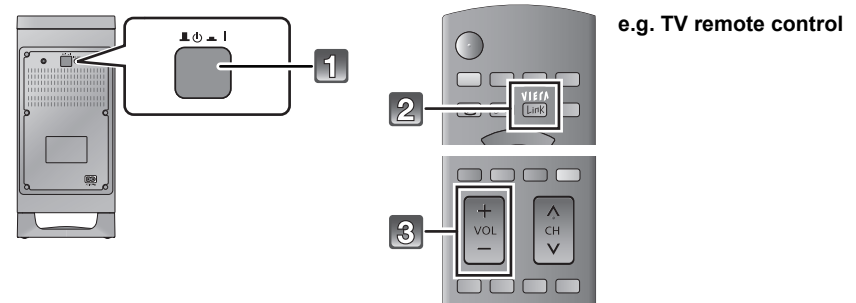

When the TV is non HDMI (ARC) compatible

HDMI cable is required for VIERA Link "HDAVI Control".

Using this system

When the TV is VIERA Link™ "HDAVI Control™" or HDMI CEC compatible

1 Turn on the active subwoofer.

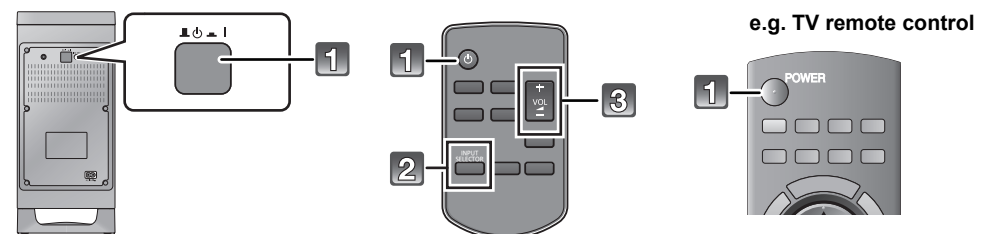

2 On the TV, select this home theater system as the TV's speakers from the VIERA Link menu.

• If the TV is not a Panasonic TV, set the "Receiver" or "External speakers" to "On".

3 Press [+ VOL -] on the TV's remote control to adjust the volume.

※ Operation with other manufacturers' equipment that supports HDMI CEC cannot be guaranteed.

When the TV is not VIERA Link™ "HDAVI Control™" or HDMI CEC compatible

1 Turn on the main unit, active subwoofer and the TV.

2 Press [INPUT SELECTOR] to select the TV sound.

3 Press [+ VOL -] to adjust the volume.

• If there is sound from the TV's speakers too, then use the TV's remote control to lower the volume to minimum.

For wall mounting and other details, be sure to refer to the Owner's Manual.
