

Let's get started.

Quick Start

1. Download the Ring app.

The Ring app walks you through setting up and managing your Outdoor Smart Plug.

2. Set up and install your Ring Bridge.

Your Bridge connects your Outdoor Smart Plug to the Ring app.

3. Open the Ring app and tap Set Up a Device.

Select **Outdoor Smart Plug** and scan this QR code. Then, just follow the in-app instructions to install and set up this device.

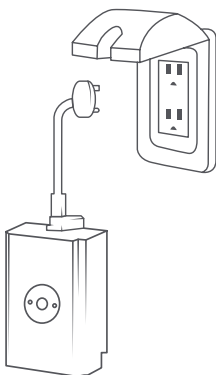

Installation

1. Connect your Outdoor Smart Plug to a weatherproof GFCI outlet.

Place it with the outlets facing down, at least 2 ft. above the ground. You can secure your device to the wall with the included hardware.

2. Plug your devices in.

If you're only using one outlet, seal the other outlet with the included cover.
