PARALLAX ADJUSTMENT:	Fixed at 50 yards
TUBE DIAMETER:	30mm
OBJECTIVE LENS DIAMETER:	23mm
FOCAL LENS POSITION:	Second Focal Plane
LENS COATING:	Fully Multi-Coated, Full Wide Band, Waterproof Coated, Low Light Enhancement
MATERIAL:	6061-T6 Aircraft Grade Aluminum
EYE RELIEF:	3.5in/89mm
EXIT PUPIL:	28mm
LENGTH:	4.5in/115mm
WEIGHT:	7.9oz/224g

ADJUSTING YOUR MAGNIFIER

To adjust your magnifier, you have to first zero your Red Dot. After zeroing your Red Dot move the elevation and windage turrets on the Mag3 to center the Red Dot in the center of the Mag3.

MOUNTING YOUR RITON MAGNIFIER

TO MOUNT YOUR RITON MAGNIFIER:

1. Position the Mag3 onto the Picatinny Rail of your weapon, behind your Red Dot. Place the Mag3 as close to your Red Dot as possible, but ensure the function of the two position mount.
2. Tighten the Nut on the mount to ensure tightness.

ZEROING THE RED DOT

IMPORTANT SAFETY CHECKS:

- Always check your weapon and surroundings for safety.
- Follow all weapon manufacturer safety guidelines.
- Always shoot from a solid rest using consistent and proper form.
- Be sure that your target is level to aid in accurate sight-in process.

TO ZERO THE RED DOT:

1. Start the sight-in process from 7 yards. From a solid rest fire one 3-shot group, ensuring that you fire at same spot each time.
2. After the first 3-shot group, make adjustments to bring bullet impact to the center of target you're shooting at. Repeat this process until you will have an accurate zero of your preferred distance.

TROUBLESHOOTING

Problems thought to be associated with your riflescope are often actually mount problems. Take the time to ensure the mounts are tight to the rifle and that scope is secured and does not twist or move in the rings. Confirm that the correct base and rings are being used and that they are in the proper orientation. Be sure to torque your rings per the manufacturer's spec

Keep in mind there are many issues that can cause poor bullet grouping. Always utilize a solid rest and maintain good shooting technique. Have a qualified gunsmith look over your rifle to be sure all things are in working order. See that the action and barrel are properly cleaned. Some rifles and ammunition don't work well together, try different ammunition and see if accuracy improves.

RITON PROMISE WARRANTY

As a part of the Riton Promise we believe in providing you with the best possible service, including the industry's best warranty. The quality of our products makes this the best warranty you'll likely never have to use; however, as hunters and outdoorsmen and women, we know that bad things sometimes happen to even the most cautious.

OUR WARRANTY IS SIMPLE:

- No proof of purchase or registration required for your Riton products.
- Lifetime warranty regardless of original purchaser.
- All warranty replacements will receive a brand-new product off the shelf. We will not ever replace the product with a repaired or refurbished product.
- Replacement product will be shipped within 48 hours of receiving and approving your return.
- Loss, theft and/or deliberately worn and damaged products are not covered. Warranty is VOID if damage results from unauthorized repair or alteration.
