

QUICK START GUIDE

WHAT'S INCLUDED:

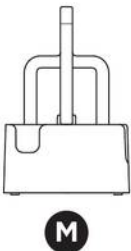

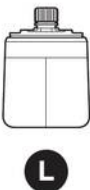

StainForce™ (Top Layer of Box)

- A** Handle
- B** Power Button
- C** Dirty Water Tank Release
- D** Dirty Water Tank
- E** Water Separator Motor
- F** Hair Filter
- G** Charging Contact
- H** Quick Pour
- I** Stain Tool
- J** Charger

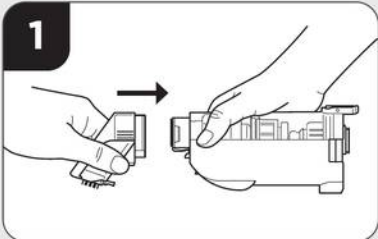

Sprayer, Caddy, and Refill Cartridge (Bottom Layer of Box)

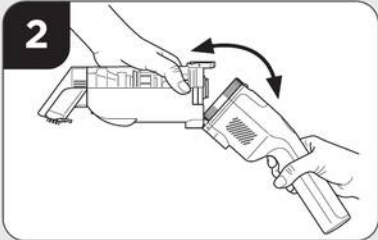

- K** Reusable Solution Sprayer
- L** Shark® Refill Cartridge
- M** Storage Caddy

UNIT ASSEMBLY

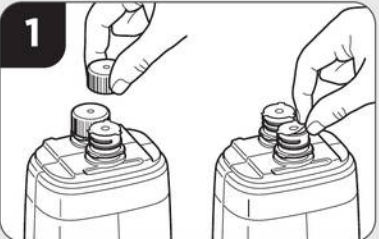

Align Stain Tool with the end of the Dirty Water Tank. Insert the tool onto the tank until it clicks into place.

Align the handle with the other end of the tank, then insert the handle until it clicks securely into place and the lock latch is straightened.

SPRAY BOTTLE ASSEMBLY

Twist off both caps on the cleaning solution bottle, then peel off the foil seals.

Press the sprayer down over the openings on top of the bottle. Make sure it clicks securely into place.

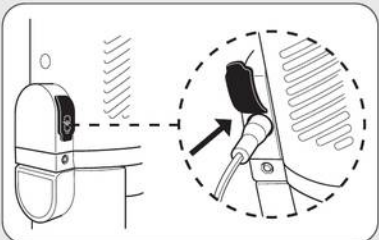

CADDY

Place the StainForce™ and spray bottle into the caddy. Clip the charger onto the unit.

NOTE: StainForce can only be stored in the caddy with the Stain Tool (I) attached. Not all accessories come with all units and may vary by model. Visit sharkclean.com for more details.

CHARGING

Connect the charger pin to the charging port on the side of the unit. After each use, recharge your unit completely.

NOTE: Charge StainForce fully before use. It can take up to 4 hours to charge completely.

HOW TO USE

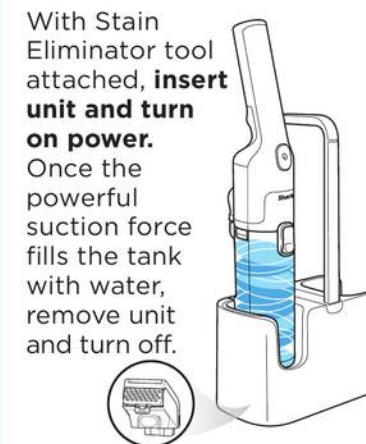

RECOMMENDED:
Run a self-wash cycle
after assembling.

QUICK SELF-WASH

Before starting,
empty all liquid
from tank.

Fill caddy
cup to MAX
FILL line with
clean water.
**DO NOT
USE SOAP.**

With Stain
Eliminator tool
attached, **insert
unit and turn
on power.**
Once the
powerful
suction force
fills the tank
with water,
remove unit
and turn off.

Empty all liquid before
storing StainForce.

CLEAN AFTER EACH USE.
See Owner's Guide
for detailed
cleaning instructions.

For the very best **STAINFORCE™** cleaning results, follow these steps.

WET STAIN?

1

Tilt
Pull Back Only

1. EXTRACT SPILL
First, suction up the liquid spill
to prevent spreading.

2

**SPRAY
TO SATURATE (X2)**

2 inches
Shark

2. SPRAY
Spray cleaning solution onto
the stain from 2 inches away.
**Let soak for a few minutes,
then spray again.** Apply at
least 2 layers of solution to
oversaturate the stain.

3

**SCRUB
TO AGITATE STAIN**

Back & Forth

3. SCRUB
Place bristles flat on the
surface and scrub the stain
back and forth firmly. See
below for information on
when to use bristles or fins.

4

**EXTRACT
USING PRESSURE**

Tilt
Pull Back Only

4. EXTRACT
For the best suction, be
sure to tilt the handle up
and apply pressure when
extracting. Slowly pull
backward over the stain to
extract the solution. **Pull
backward ONLY.**

REPEAT
STEPS 2-4
UNTIL STAIN
FULLY FADES.
LET DRY.

DRY STAIN?

1

Back & Forth

Tilt
Pull Back Only

1. SCRUB STAIN & EXTRACT
Scrub stain back and forth using
bristles or fins. Next, turn on power,
tilt the handle, and drag backwards
to extract dry debris.
