- Detach the sleeve and wash in machine or by hand. Allow to air dry

Maintenance

- Make sure the power supply is turned off and the plug has been pulled out from the socket.
- Sweep off the dust. Keep the foot massager clean and away from damp places.
- Store the massager in a cool, dry place out of reach of children.
- Avoid contact with sharp edges or pointed objects which might cut or puncture the cover of massager.

TROUBLESHOOTING GUIDE

Fault	Solutions
There is a clattering noise in the movement	This is normal caused by the working of the motor while in use.
The massage device switches off suddenly	Device may have been in use for 15 minutes. Auto-shut off function activated. Continue using by pressing the 'power' button after resting the unit for 15 minutes.
The massage device fails to start	Check if device has been used for more than 15 mins. If so, let device rest for 15 mins before continuing. Device may require longer time to cool in warmer environments.
	Check if adapter is plugged into socket.
	Check if adapter output is connected to device power inlet.

- After continuously using the massager for a prolonged period, the massager might turn off automatically due to the overheating protection feature. Please let the machine cool down for approximately half an hour before using the massager again.

WARRANTY

If the product(s) is damaged or defective within a reasonable time, Snailax offers the warranty as below.

FCC STATEMENT

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit is not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
