⚠ WARNING! This device can be dangerous! Careless or improper use may cause serious injury.

Before using the leaf sweeper, familiarize yourself with the controls, especially how to stop it in the event of an emergency. Children should never be allowed access to the leaf sweeper.

General Safety WARNINGS!

When using this leaf sweeper, basic safety precautions should always be followed to reduce the risk of personal injury. These precautions include:

1. Never place hands, fingers, or feet near the disc brushes. Although this leaf sweeper is not powered by a motor, the disc brushes spin when the wheels turn.

7. Clear the sweeping area of large foreign objects such as rocks, wire, toys, and other miscellaneous articles, which may be too large to be picked up by the leaf sweeper.
8. Make sure that the area is clear of bystanders before starting. Stop the sweeping if anyone enters the area.

9. Always look down and behind you before starting and while moving backwards with the leaf sweeper.
10. The leaf sweeper is not intended for use on grass or for sweeping up liquids.
11. Never sweep up hazardous substances, explosive or combustible liquids as well as undiluted acids or solvents. This includes gasoline, paint thinner or heating oil which can generate explosive fumes upon contact with air. Acetone, undiluted acids and solvents must also be avoided as they can damage the materials on the machine.
