LiFE2-in-1

**CORDLESS 2-IN-1 VACUUM
FOR QUICK CLEAN UPS**

LET'S GET STARTED.

H85-LF-B14

Let's talk safety

Basic safety precautions

This vacuum cleaner is intended for household use only and NOT for commercial or industrial use.

- It is a battery-operated appliance, the battery being charged outside the appliance.
- Only use the vacuum cleaner indoors and keep the area you're cleaning well lit.
- Keep fingers, hair and loose clothing from moving parts and openings whilst using the vacuum cleaner.

Don'ts

- Don't charge the Cordless upright outdoors, or leave the charger connected to the mains when not in use.
- Don't use this vacuum cleaner if it has been dropped, damaged, immersed in water or left outdoors.
- Don't handle the charger plug or use the vacuum cleaner with wet hands.
- Don't run over the charger cord or use the vacuum cleaner if the charger cord or plug is damaged. Please contact our Customer Care Line on: 0330 026 8455 (Mon-Fri 8:30am to 6:30pm, Sat 9:00am to 5:00pm).
- Don't vacuum up hard or sharp objects such as glass, nails, screws, coins, etc.

Do's

- Always make sure the filter and dirt container are fitted correctly before using your vacuum cleaner.
- Always turn off and unplug the vacuum cleaner from the charger before carrying out any maintenance.
- Turn off all controls on the vacuum cleaner before disconnecting or connecting the charger.
- Take extra care when cleaning on the stairs.
- Always protect the charger cord from heated surfaces or near open flames.

- This vacuum cleaner can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the vacuum cleaner in a safe way and understand the hazards involved. Children should not play with the vacuum cleaner. Cleaning and user maintenance should not be made by children without supervision.
- Only Vax recommend charger, tools and accessories should be used with this vacuum cleaner.

- Don't use the charger cord as a handle, pull the charger cord around corners or sharp edges or close a door over the charger cord. Don't unplug charger by pulling on the charger cord.
- Don't attempt to remove blockages with sharp objects as this may cause damage to your vacuum cleaner.
- Don't use the vacuum cleaner with incorrect voltage as this may result in damage or injury to the user. The correct voltage is listed on the ratings label.
- Don't vacuum up hot coals, cigarette butts, matches or smoking hot burning items or use in an area where there may be harmful fluids (chlorine, bleach, and ammonia drain cleaner).

- Use only CE approved 13amp extension cords, non-approved extension cords may overheat. Care should be taken to arrange the extension cord as it can be a trip hazard.
- Always carry the vacuum cleaner by the handle.
- Store your vacuum cleaner in a cool, dry area.

Please keep instructions for further use.

Thank you for buying this LiFE 2-in-1.

Taking care of your carpets and hard floors

The LiFE 2-in-1 is designed to make vacuuming carpets and hard floors regularly, as effective and efficient as possible and this user guide will help you get the most out of your machine.

Maintaining your carpets and hard floors will ensure they keep their appearance for longer and Vax will help you take good care of them.

Taking care of your LiFE 2-in-1

Also inside this guide are instructions on maintaining your new machine, so that it's always ready when you are to tackle your carpets and hard floors.

PLEASE READ 'LET'S TALK SAFETY' AT THE BEGINNING BEFORE USE

Assembling your 2-in-1 vacuum cleaner

Line up floorhead with main body, push firmly into place.

Line up handle with main body and lower into place.

Insert screw into back of the handle and tighten with a cross head screwdriver until handle is secured into place.

Charging your 2-in-1 vacuum cleaner

NOTE: Charging will be required before first use. Initial charge requires 10 hours.

Plug the charger into the back of the docking station and plug into mains.

Slide the vacuum onto the docking station. The LED indicator will initially turn green, then illuminate red to indicate that it is in place and charging.

Once fully charged (5 hours) the LED indicator on the On/Off button will illuminate green and turn off to power saving mode.

When the vacuum needs recharging the LED light on the On/Off button will flash red and the machine will cut out.

Using your machine

Operating as an upright vacuum cleaner

NOTE: Do not use brushbar on hard floors as it may cause damage.

Unplug the charger from the mains and remove the vacuum from the docking station.

Place foot on the floorhead and pull the handle backwards to recline the machine.

Press the ON button on the handle to turn the machine on.

To select between high and low suction press the suction controller button.

The brushbar will not rotate when the vacuum cleaner is in the upright position.

Operating as a handheld vacuum cleaner

Press the handheld release button. Lift to remove the handheld from the main body.

To operate press the On/Off button to switch the handheld on.

For a more detailed clean, push to attach the 2-in-1 tool connector into the handheld and line up the 2-in-1 with the nozzle on the connector and push firmly into place.

Press the On/Off button to switch the handheld off. Pull to remove accessory from nozzle. Line up and return handheld to main body.

Always take extra care when cleaning stairs. Always switch the handheld off before connecting or disconnecting the accessories and before returning the handheld to the main body.

CAUTION

Taking care of your machine

Emptying the dirt container

CAUTION: Always switch off the vacuum cleaner before carrying out any maintenance or troubleshooting.

Press the handheld release button. Lift to remove the handheld from the main body.

Press the dirt container release button to remove the dirt container.

Squeeze tabs to remove filter and frame.

Hold dirt container over a bin allowing dirt/debris to fall out.

Don't over fill the dirt container. Replace the filters every 6-9 months.

Taking care of your machine

Cleaning the filter

CAUTION: Always switch off the vacuum cleaner before carrying out any maintenance or troubleshooting. Do not use your vacuum cleaner without the filters in place.

Press the handheld release button. Lift to remove the handheld from the main body.

Press the dirt container release button to remove the dirt container.

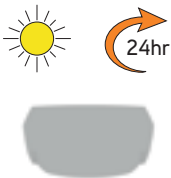

Squeeze tabs to remove filter and frame.

Tap the filter over a bin to remove any dust and debris. Do not wash filter frame.

Pull foam filter from underneath of filter frame. Wash foam filter under running water (max 40°C).

Leave for at least 24 hours or until fully dry before replacing into the machine.

For best cleaning result filters require cleaning every 4-6 uses or as needed.

Taking care of your machine/Let's talk technical

Cleaning the terminals

CAUTION: Always switch off the vacuum cleaner before carrying out any maintenance or troubleshooting. Do not use your vacuum cleaner without the filters in place.

Using a dry cloth or soft dusting brush remove any dust or debris from terminals in vacuum, on handheld and on docking station.

For best performance terminals in vacuum, on handheld and on docking station must be free from dust and dirt.

CAUTION

Clearing blockages

Press the handheld release button. Lift to remove the handheld from the main body.

Press the floorhead release button and pull floorhead to remove.

Remove any blockage from the main body.

Cleaning blockage for the brushbar

If the brushbar has been obstructed, the Motor Protection Sensor may have been activated. Remove the battery and handheld and clear any obstruction from the brushbar. Wait 30 minutes for the vacuum cleaner to reset itself. Replace the battery and handheld and retry.

Using a pair of scissors remove any threads or hair caught around the brushbar.

Changing the brushbar

Turn the lock release to unlock the floorhead cover. Lift and remove floorhead cover.

Remove brushbar lifting side of brushbar not connected to belt. Unhook other side of brushbar from belt.

Loop the belt over the brushbar. Replace the brushbar by fitting the belt side first. Push other side of brushbar back into the floorhead and replace floorhead cover.

When changing the belt, this is the perfect time to clear any debris from your brushbar. Using a pair of scissors, cut through any threads or hair caught around the brushbar.

Don't forget your accessories!

What to do if it goes wrong

Problem

Solution

Why does my vacuum cleaner have no power?

- Check the machine is fully charged. Go to 'Using your machine'.
- Check the charger is plugged into the mains and correctly connected to the docking station. Go to 'Getting started'.
- Check the handheld has been correctly fitted into the main body.
- Check terminals on vacuum, handheld and docking station are clean. Go to 'Let's talk technical'.
- If the brushbar has been obstructed, the Motor Protection Sensor may have been activated. Remove the battery and handheld and clear any obstruction from the brushbar. Wait 30 minutes for the vacuum cleaner to reset itself. Replace the battery and handheld and retry.

Why isn't my vacuum cleaner charging?

- Check the vacuum is connected correctly to the docking station. Go to 'Getting started'.
- Check terminals on vacuum, handheld and docking station are clean. Go to 'Let's talk technical'.
- Check charger and docking station for damage. If damaged please contact our Customer Care Line on: 0330 026 8455 (Mon-Fri 8:30am to 6:30pm, Sat 9:00am to 5:00pm).
- Check the charger is plugged into the mains and correctly connected to the docking station. Go to 'Getting started'.

Why won't the vacuum cleaner pick up?

- Empty the dirt container and clean filters. Go to the 'Taking care of your machine' page.
- There may be a blockage in the vacuum cleaner. Go to 'Clearing blockages'.
- The brushbar may not be turning. Go to 'My brushbar isn't turning?' below.
- Vacuum may need recharging. Go to 'Getting Started'.
- Low suction has been selected, increase to high suction. Go to 'Using your machine'.

My brushbar isn't turning.

- If the brushbar has been obstructed, the Motor Protection Sensor may have been activated. Remove the battery and handheld and clear any obstruction from the brushbar. Wait 30 minutes for the vacuum cleaner to reset itself. Replace the battery and handheld and retry.
- The brushbar may be blocked. Go to the 'Let's talk technical' page.

Why is the LED light Continually flashing?

- The Red light will flash when the vacuum needs recharging. Go to 'Getting started'.
