LOCATION REQUIREMENTS

To ensure proper ventilation for your refrigerator, allow for 1/2 in. (1.25 cm) space on each side, 3 in. (7.5 cm) at the top, and 1 in. (2.5 cm) at the back. (At the top, when using half depth cabinet, use top of cabinet height "C" dimension. When using full depth cabinet, use overall "D" dimension.) When installing your refrigerator next to a fixed wall, leave 2 in. (5.08 cm) minimum on hinge side (depending on your model) to allow for the door to swing open.

NOTE: Do not install the refrigerator near an oven, radiator, or other heat source, nor in a location where the temperature will fall below 40°F (5°C).
