

RH2030XJ

For power cord connected installations, a U.L.-listed range hood cord-connection kit **MUST** be used. Note: Some models come with a factory installed 3 ft. long power cord having a 3-prong ground plug.

OVERALL DIMENSIONS

Figures 1-2 show common venting methods and what types of materials are needed.

Figure 1

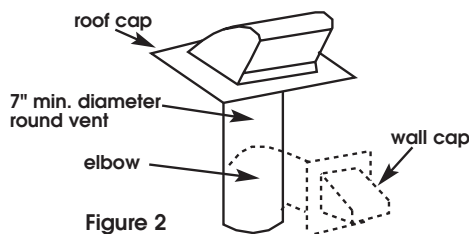

Figure 2

The diagram illustrates the layout of a 7-inch system. It includes a 3-1/4" x 10" transition at the bottom left, a 90° elbow, a 6 ft. straight section, and a wall cap at the top right. A vertical dimension of 2 ft. is shown between the transition and the elbow. The text 'Maximum length' is followed by a list of components: 1 — transition, 2 — 90° elbows, 8 feet straight, and 1 — wall cap. Below this list is the text 'Length of 7" system'.

Maximum length

- 1 — transition
- 2 — 90° elbows
- 8 feet straight
- 1 — wall cap

Length of 7" system

3-1/4" x 10" to 7" = 4.5 ft.	3-1/4" x 10" to 7" 90° elbow = 5 ft.	7" to 3-1/4" x 10" 90° elbow = 9 ft.	
90° elbow = 5 ft.	7" to 3-1/4" x 10" = 1 ft.	45° elbow = 2.5 ft.	7" wall cap = 0 ft.
